

# Resetting MFA

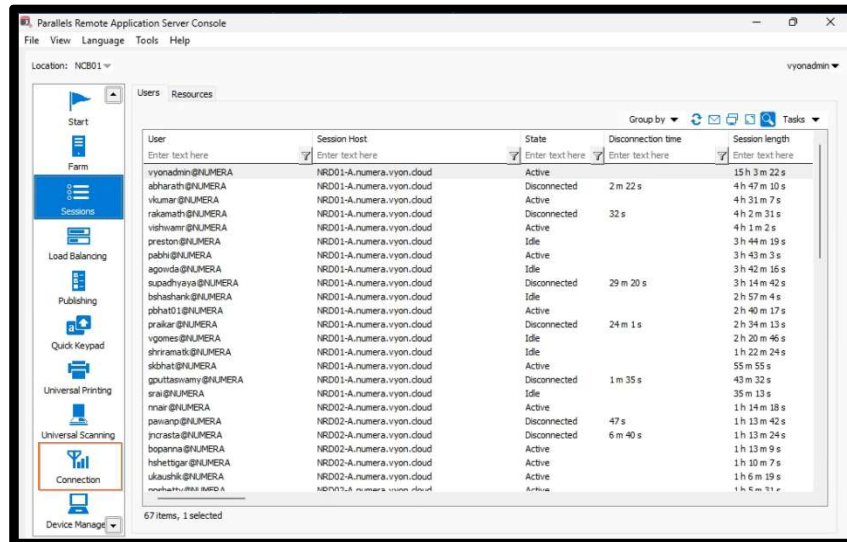

1. Login to the Connection Broker (NCB01)
2. In the Windows Search bar type in “Parallels Remote Application Server Console”

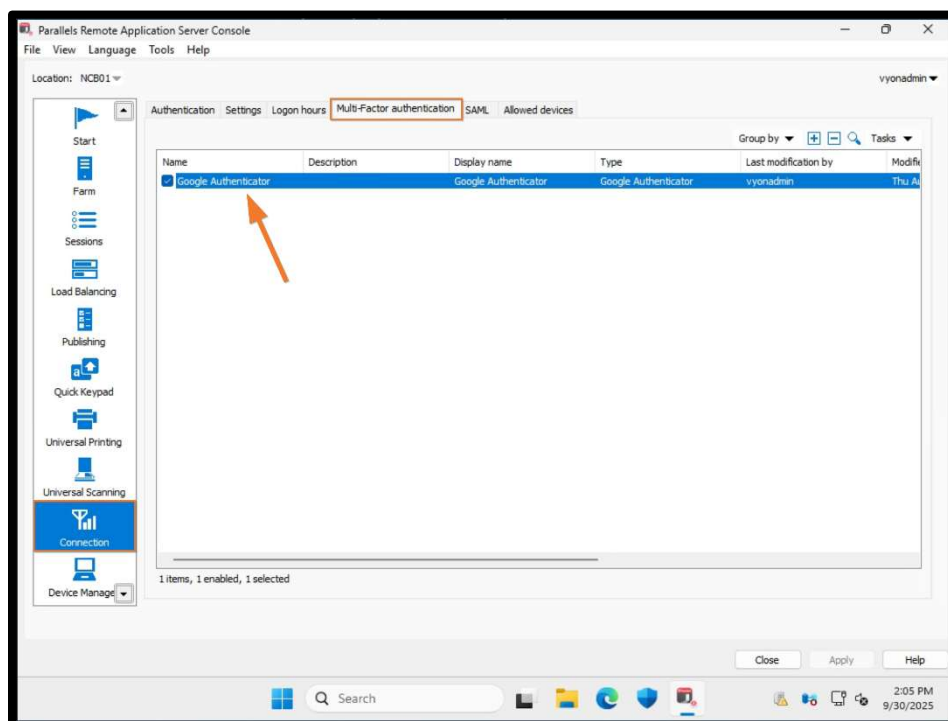

3. Type in your admin credentials

#### 4. On the left-hand side go to “Connection”

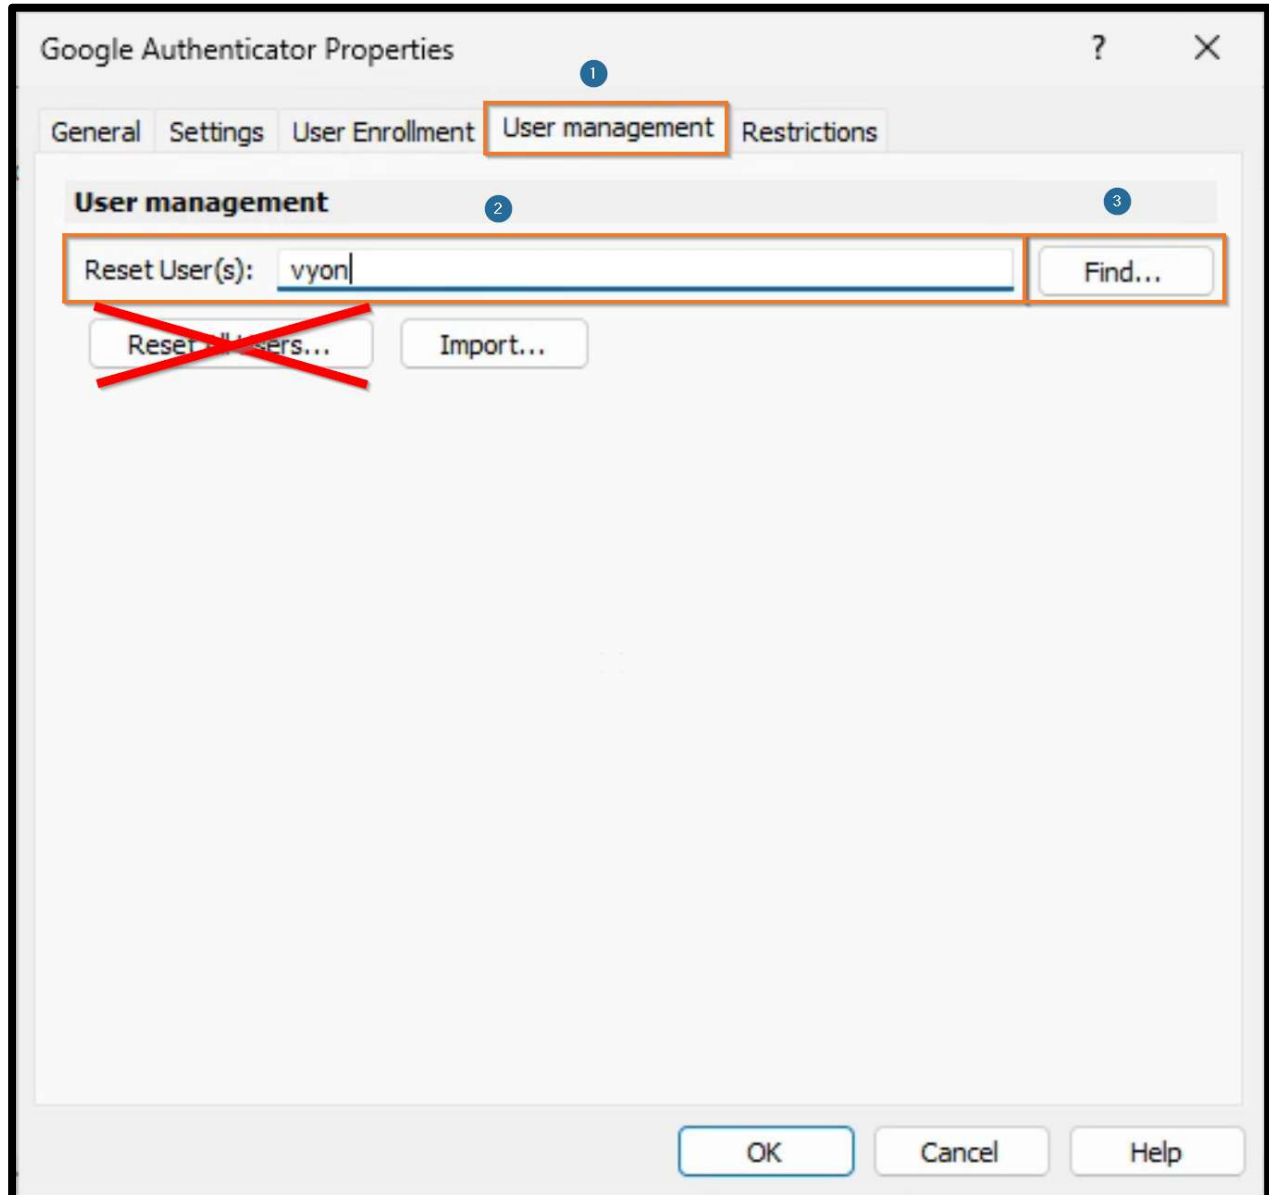

#### 5. On the “Connection” page go to the tab that says “Multi-Factor Authentication” and double click on “Google Authenticator”

6. In the Google Authenticator Properties Window

- i. Click on the “User Management” tab
- ii. Start typing the username
- iii. Click “Find”

**DO NOT CLICK ON THE “Reset All Users” BUTTON**

7. Select the user you would like to reset MFA for and then press “OK”
